# A BUSINESS BUILT FROM THE GROUND UP.

---

Ault is one of North America's best-performing equipment suppliers. For more than 15 years, we have been providing our customers with state-of-the-art equipment and the fastest, most efficient service possible.

We are an exclusive distributor of brands recognized as industry leaders: McCloskey International (with whom we have worked since our inception), Lippmann, Superior, MWS, Ecoverse and Terracon. For your work site, we offer only the best. The best products supported by unrivalled service.

We don't just sell machines.  
We're a partner in your project.

We're a part of your team.

HERE'S WHAT WE PROVIDE,  
WHAT WE MAINTAIN,  
WHAT WE SUPPORT.**

**OUR PRODUCTS  
AND SERVICES  
ARE BUILT FOR WORK.**

**McCloskey**  
INTERNATIONAL

## **WORLDWIDE ACCLAIM, UNMATCHED REPUTATION.**

With a comprehensive range of equipment including trommels, scalpers, and conveyors, McCloskey International has gained a global reputation for its innovations and high-performance products.

Also recognized for its reliability and expertise in trommel design, McCloskey International provides top-tier solutions for processing topsoil, construction waste, composting, and organic material.

## **TRANSFORMING MATERIALS TO VALUE.**

Terracon delivers advanced material processing solutions designed to maximize efficiency on site.

The Maverick 224 next-generation blending station is built to handle large volumes of aggregates, compost, soils, sand, sawdust, and coal. Paired with the 4065T tracked conveyor, the system ensures efficient material handling while reducing loader use and double handling.

# INNOVATIONS THAT REDEFINE STANDARDS.

For over 50 years, Doppstadt has been looking towards the future by offering a comprehensive range of cutting-edge, simple, and efficient systems covering a variety of applications such as composting, mulching, topsoil, aggregates, as well as construction and demolition waste.

Doppstadt raises the standards to a higher level with shredders like the Inventhor 9, the AK640 grinder, or the SM720 Trommel, thus providing advanced solutions for environmental processing.

# CLEANER COMPOST, HIGHER REVENUE STREAMS.

Discover the full range of density separators from Ecoverse, including the EcoSift Ventus 4 and the EcoSift AERAS. The Ventus 4 offers an innovative solution for removing contamination from excess compost without costly hydraulic separation, while the AERAS enables low-cost removal of the light fraction.

These technologies efficiently extract stone, paper, plastic, metal, and other inorganics from direct discharge streams, promoting the production of cleaner compost and maximizing revenue.

## **LEADING THE WAY IN PREMIUM COMPOST.**

The windrow turners by BACKHUS are the key component for organic material recyclers, whether for commercial, municipal sites, or farms.

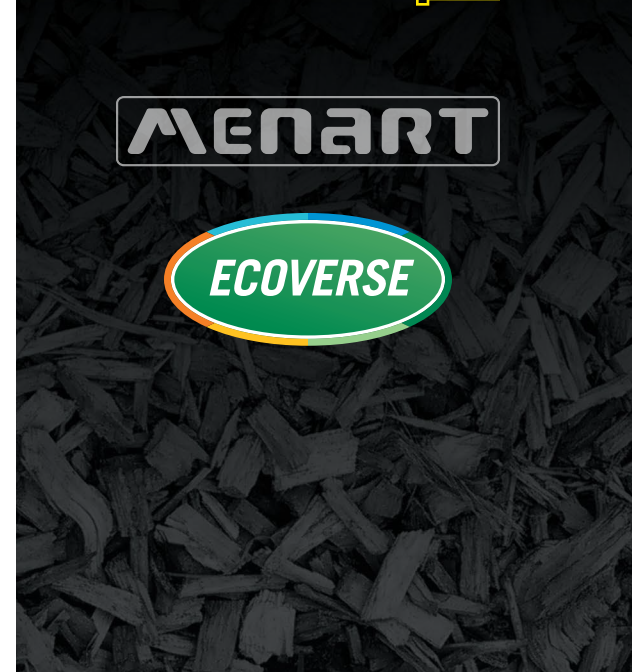

With a wide range of models from the compact A30 to the powerful A75, our revolutionary composters adapt to each application, maximizing compost production while reducing space and processing time.

## **AN ALL-TERRAIN SOLUTION FOR EFFECTIVE COMPOSTING.**

Drawing on 30 years of innovation, Menart windrow turners are renowned for their versatility in various applications such as green waste, dairy cattle manure, wastewater biosolids, and more. They are self-propelled and easy to control via a touchscreen, also recording technical data.

Equipped with safety features like a radial torque limiter and a rubber safety curtain, these windrow turners easily fold into transport mode and are suitable for all terrains.

TIGER DEPACK

## **COMMITTED TO SHAPING A SUSTAINABLE FUTURE.**

Tiger Depackaging Systems provides efficient solutions for separating organic waste from inorganic packaging, thereby converting food waste into profit! In a single operation, the Tiger can process waste, separate it, and extract organic waste into a wet or dry output, suitable for composting, animal feed, or AD biogas production. Additionally, it separates, cleans, and prepares packaging fractions such as paper, plastic, cardboard, aluminum, or metal for recycling.

TWO RAM

## **COST-EFFECTIVE WASTE MANAGEMENT SOLUTIONS.**

CK International balers, renowned for their quality and exceptional performance, are available in two versions. Semi-automatic balers are perfectly suited for businesses generating significant volumes of waste, producing dense bales at an impressive rate of 3.3 tonnes per hour. Conversely, two-ram balers are ideal for waste transfer stations or sorting centers, offering high-density bales weighing up to 1.5 tonnes.

# AULT

## WEAR PARTS

**BUILT TO LAST, DESIGNED TO PERFORM.**

At Ault, we provide the best parts to tackle the toughest conditions. Designed to endure and exceed your expectations, they deliver unmatched performance and reliability.

Each part is certified, tested, and ready to take on the challenges of your most demanding operations.

## SHREDDER AND GRINDER WEAR PARTS

- *High speed and low speed teeth*
- *Knives / Blades / Counter knives*
- *Hammers*

## SCREENING AND PLATES

- *Self-cleaning screens*
- *Woven wire*
- *Punch plates*
- *Finger deck assemblies*
- *Trommel drums and screens*
- *Rollers*
- *Scraper assemblies*

## OTHER PARTS

- *Conveyors and stackers*
- *Windrow turners*
- *Belts and drive systems*
- *Hydraulic and adjustment components*
- *Magnetic liners*
- *Canoe liners*

# AULT

## BUILT TO SUPPORT YOUR OPERATION.

At Ault, we do more than sell equipment. We keep your operation moving.

Certified technicians, fully equipped mobile service units, and dedicated parts department ensure your equipment stays productive when it matters most.

Our equipment is built for performance. Our team is built to back it up.

## A PARTNER ON THE JOBSITE.

- *Certified technicians*
- *Emergency field service*
- *In-house and on site repairs*
- *Wear parts & components*
- *Technical support & diagnostics*
